# Guidelines of the competition

Mathletics

Starting on March 10th, **March Math Mania** will run for 3 weeks.

We are challenging your school to earn as many participation points as you can. The top three schools with the highest average participation points per student will be the winners!

This will be calculated by taking the total number of student points from Live Mathletics, Curriculum Activities and Skill Quests divided by the total number of active students. So not to worry if your whole class or school can't participate!

## Rules for the 3-week challenge:

- This competition is open to Mathletics subscribed schools in the Americas
- As a Mathletics subscriber, your school is automatically entered into the competition, no need to register! If you would like to opt-out please email [mathletics.amer@3plearning.com](mailto:mathletics.amer@3plearning.com)
- Only students can complete the activities and earn points
- Only points and activities mastered within the dates of the competition will be calculated
- Work completed on tablets, in offline mode may not be calculated
- Schools may add additional students for free during the competition! Your Client Manager will be happy to set this up

## Support Team

Have a question? Contact us! We're here for you. Our dedicated team is on hand to answer any questions you may have. We're very friendly and passionate about education. If you have a question about **March Math Mania** or just want to discuss how to meet your school's objectives with Mathletics, do not hesitate to get in touch. We look forward to hearing from you!

# How to master curriculum activities and earn points

Mathletics

## Activities (Courses)

- 1 correct answer = 10 points
- 1 correct test answer = 20 points
- 1 correct "Are you ready" answer = 20 points

### How to master an activity

The students need to earn a score of 85% or higher to “master” an activity. Students will see a gold bar when they have achieved mastery.

### TIP!

Each week students need to earn **1000 points** to achieve a certificate.

Students can repeat Activities, but they will only score points up to a total of **300 points** in any one activity.

Students can also repeat the ‘**Are you Ready**’ and end of topic ‘**Tests**’, but they will only score points up to a total of 600 points.

## Skill Questions (Quests)

- 1 correct answer = 10 points
- 50 bonus points for completing a level or Quest.

### How to master a Quest

Students need to answer 5 questions in a row correctly (or 6/8 of the last 8 questions) to earn a gem. The number of gems is equivalent to the number of steps in the Quest. Once a student has completed each step, and sees all of their gems, they have achieved mastery.

## Live Mathletics

- 1 correct answer = 1 point
- 1 correct bonus level answer = 2 points\*

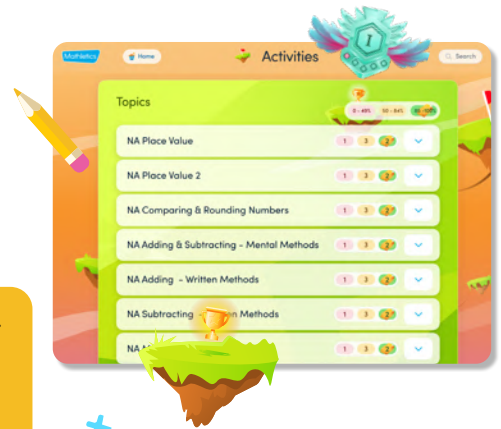

\* The bonus level is indicated by a gold star next to the level number.

### Teacher tip

In your teacher console, click the ‘**Assign & Review**’ button in the left navigation to assign curriculum activities for individuals or groups of students. You can use the ‘**Refreshed Assign and Review**’ tile to assign Activities and Skill Quests to all your students. Follow the prompts to set a start date and an optional end date.

When students log in, they will find assigned Activities and Skill Quests under their To-do list. When ‘**Students are restricted to assigned tasks**’, they will be **locked to their To-do list** within the Student Centre until they **complete all assigned tasks or they earn 350 points for the day** (whichever happens first). After earning 350 points they will have full access to explore Mathletics for the remainder of the day.

# March Math Mania

Mathletics

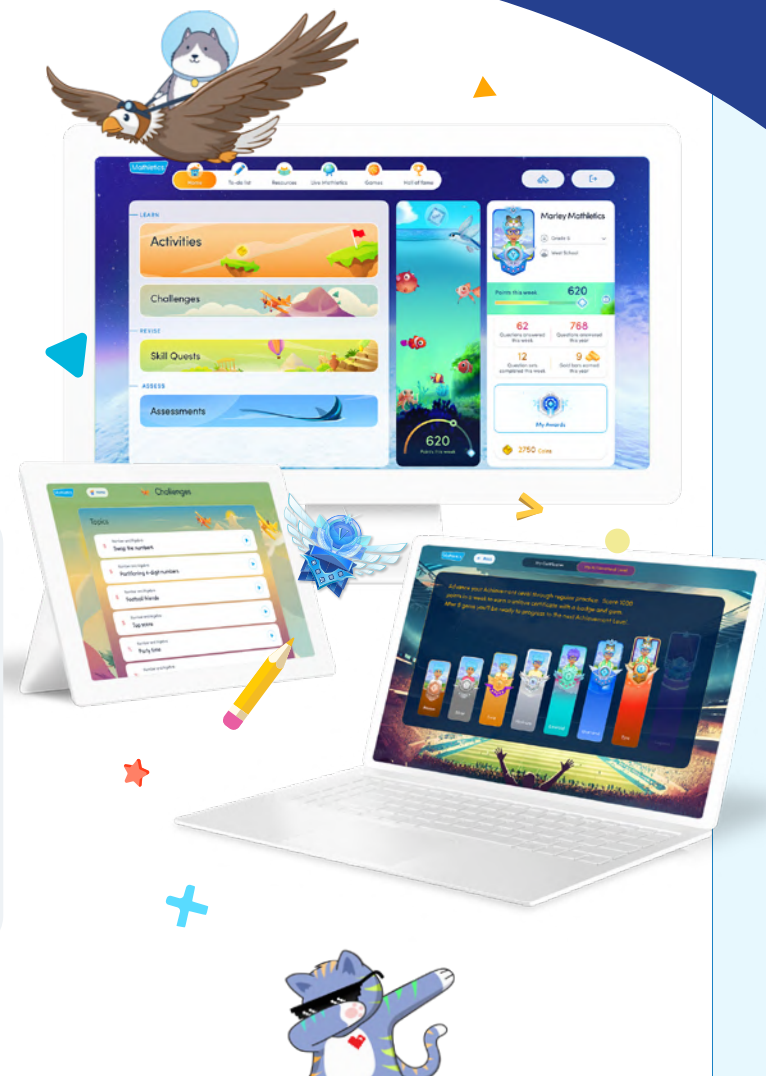

Dear Parent/ Guardian,

Your child's school has joined March Math Mania 2025! This is a math challenge focused on students mastering curriculum activities and practicing their mental math skills. Your child's login information is provided below so that they can also participate in the challenge at home. Prizes are awarded for top performing schools.

There is also a free Mathletics app for tablet devices that students can use to access Mathletics from anywhere. All of their activities are recorded and will be synced with their main Mathletics account.

**The app is available for iPad and Android tablets.**

Mathletics

Please find your child's username and password below.  
Let's work together to inspire a love of math!
