

Get students on track with their math, and see real growth with the School Math Package.

Mathletics

Mathseeds

Mathseeds + Mathletics Get the benefits of two programs!

With the Mathletics and Mathseeds package, younger students can make clear measurable progress through Mathseeds' learning pathways, designed for learners K-3, and then move seamlessly onto Mathletics targeted and adaptive curriculum activities.

Older students in need of intervention and remediation can use Mathseeds to bring them up to level, with a program that suits all learning styles, and reduces math anxiety. Choose Mathseeds Mental Minute or Live Mathletics or a combination of both to build mental math skills across your school.

Teachers also gain access to an expanded Teacher Toolkit with full access to all classroom resources in Mathseeds and Mathletics, including hundreds of printable resources and eBooks, activity worksheets, math Big Books, lesson plans and much more.

Benefits:

- Flexibility for teachers to choose the resource that suits individual student's learning needs at any stage.
- Learners are fully supported, whatever their ability level.
- See improvements across all students, across the whole school.
- Provides real value for money, as teachers can access hundreds of teaching resources and worksheets from across both programs.
- Includes access to 3P Learning's support team which helps your school with account set-up, onboarding and regular training.

Created specifically to meet the needs of early learners (K-3), Mathseeds introduces core math concepts in a fun and motivating way.

Younger learners are set on a guided pathway, learning the fundamentals of math in a structured progression.

Mathletics

Mathletics builds students' confidence in math through personalized learning, gaming and mastery challenges.

Mathletics's approach of engage, target, diagnose, assess, report and extend, ensures students achieve fluency and mastery. Motivation is through rewards, certificates, and mathematical gaming, which keeps students on track, entertained, and educated.
