

Manage Students

View classes, create groups, assign courses, change curriculum, download sign-in cards and print certificates all on one screen.

**Courses**

View available curriculum courses, show/hide course topics and modify courses. Assign tests to assess individual student's understanding.

Resources Hub

Access over 700 Problem Solving & Reasoning activities, hundreds of printable eBooks in the Mathletics Library and Numeracy for Early Learners resources.

Settings

Set Live Mathletics minimum levels for each student.

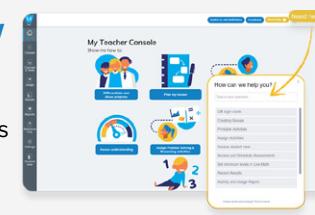

The simple left-hand navigation menu is designed to make teacher tools easily accessible.

The screenshot shows the Mathletics Teacher Console homepage. On the left is a vertical navigation menu with icons for Manage Students, Courses, Assign & Review, Results, Resource Hub, Settings, and Student View. The main area has a title 'I want to...' above several cards:

- Differentiate and show progress (Get Started)
- Plan my lesson (Get Started)
- Assign homework (Get Started)
- Assign and review progress (Get Started)
- Numeracy for Early Learners (Get Started)
- Engage my students (Get Started)
- Need help? (Get Started)

Assign & Review

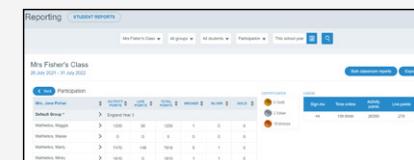

Preview and assign curriculum aligned courses (Activities), Skill Quests, Problem Solving & Reasoning activities (Challenges) and Assessments, all in one place.

Show Me How

A step by step guide to your Mathletics features without leaving your console.

Reports

View in-depth achievement, improvement, and usage data at a class and student level.

**Student View**

Use the student console to attempt curriculum activities with your class, introduce concepts or play one of the engaging mathematical games with your students.

**Results**

Students are grouped by grade band based on the result of their latest attempt at each activity. View the 10 most recently attempted activities, results by student or results by topic and activity.
